Databases	MySQL, MongoDB
Libraries/Tools	NumPy, Tkinter, Git, GitHub

COURSEWORK

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Computer Networks
- Computer Architecture and Organization

PROJECTS

StudentSathi – One-Stop Digital Guide for Student Empowerment

- Developed StudentSathi, a centralized student-support platform that provides verified information on government schemes, ID documents, certificates, academic resources, and emergency assistance, with structured step-by-step workflows to simplify access to essential services and resources.

ClickCraft AI – AI-Powered Thumbnail Generator

- Developed an AI-powered thumbnail generation platform that creates engaging and customizable thumbnails from user prompts, featuring automated text placement, image enhancement, multiple design templates, and real-time preview for content creators.

SkillSprint AI

- Developed a opportunity discovery platform for Indian college students that aggregates internships, hackathons, scholarships, and fellowships using AI-powered search, integrates GitHub to analyze user repositories and extract technical skills, and includes a skill-gap analysis feature that flags missing keywords against opportunity requirements to help students improve their application readiness.

EXPERIENCE

Content Writer & Co-Lead, Blockchain Club, VIT Bhopal	Dec 2024 – Present
• Create technical articles, social media content, and promotional material to enhance club visibility. Contribute to content planning, team coordination, and mentoring members after promotion to Co-Lead.
